List all forms of health testing that the dam has completed:

List any known genetic diseases or deformities:

Terms and Conditions

The stud fee must be paid to K. Line Poodles in the form of cash, money order, debit card or credit card prior to the first attempted breeding. The stud fee is nonrefundable. In the event that the live breeding, AI or TCI is not successful, the stud service may be repeated up to 3 times until a pregnancy occurs. The owners of the female may choose to transfer their stud service to a different stud offered by K. Line Poodles at any time.

Live breedings will consist of a minimum of 2 attempted ties. Unless otherwise agreed upon, the dam will be expected to travel to the stud. If traveling is required on the stud's behalf, the owners of the dam must pay for all travel-related expenses including hotel, gas, airfare, food, etc.

Owners of female must provide proof of current vaccinations to K. Line Poodles prior to breeding. If female has been bred in the past, a brucellosis test must be performed prior to a live breeding taking place. Owners of female are responsible for covering ALL fees associated with artificial insemination or trans-cervical insemination including semen collection and analysis.

By signing this contract, all parties agree to the above terms and conditions. Any disputes will be settled in the Arizona court of law.
